

I hope that duck pond does a sum good so I can cum bk to work this fall. Gosh I wouldn't have to work hard, just sit in the office and believe a lil once in a while. My biggest headache at present is Schwarzenegger that guy drives me nuts. I am sure it only a end put him in his place dam quick.

Well anyway I will see u after Labor Day.

Herb:

I was downtown this am to pay your insurance. Mel Butler sed he had just received a money order from you so that is all settled. We both had the 15th marked on our calender so we wouldnt forget it.

I expect to leave for NYC next Aug 24, I can take optional routing and stop off at WCK and look that joynt over. B4 I leave officially I will take a couple days vacation so it wont be too long, or at least wont look too long on the books. This stop over will cost me a lil dough from my own pocket. Oh well u did it so I guess I can.

I wrote to Frank McLaghlin about both of us being on 35.1 and 35.2 but Frank sez they are converting to 152 so he isnt worried. Imagine Schnell picked 1 mobile frequency for the entire city of Chgo. He is nuts and I told Frank so. Brother Kurtzowitz at WPEP is all changed over to 152, so you can see the trend. Quandt is still waiting for channels from Wyatt. Wunderlich I understand is now midwest representative for Link. Wont tt b sumpin?

I have wanted to drive out and see you but we just have too dam much work. But since Jimmy sez u wl b bk Labor Day I will see u after the convention.

A guy was in the other day, he just received his masters degree in EE with a major in Communications from Madison. He wants a job. Imagine a guy with such a degree gg 2 this outfit looking for a job. Things must be getting tuff.

That big survey report will b out Aug 17 and if I can get a hold of a copy it will make good reading. In connection with teletype he sees no reason why we shud pay through the nose to Ma Bell every month for rental, when we can buy our own and use our own lines. TT xmtr and revr about 800.00 revr only 700 at least those are the cost we revd from the TT Corp'n at Chgo. This survey guy sez that he will advise centralization of the phone facilities but not on the telephone co baais. If there r high monthly rental charges by Ma bell he is agin it. Anyway Tuesday the book of the week will be out and I suppose it will be in the Sunday Journal, at least part of it. If it does come out Sun I will clip it and mail it to you just to play safe.

over

I hope that duck pond does u sum good so u can cum bk to work this fall. Gosh u wouldnt have to work hard, just sit in the office and beller a lil once in a while. My biggest headache at present is Schraufnagel that guy drives me nuts. I am sure tt only u cud put him in his place dam quick.

Well anyway I will c u after Labor Day.
